TAIPEI MEDICAL UNIVERSITY

Founded in 1960, Taipei Medical University (TMU) is a leading private university in Taiwan that excels in teaching, research, and a full range of health care services. As higher education plays a vital role in cultivating leaders of the next generation, TMU aims to cultivate sustainable development in medical education and provide diverse pathways to higher education.

TMU VIRTUAL RESEARCH CAMP

TMU Virtual Research Camp (TVRC) offers research mentorship through distance learning to foster research capability, innovative thinking, global awareness, and problem-solving skill sets to develop young talents.

Students will have the opportunity to engage in an interactive virtual mentorship with one of the faculty-led research topics from TMU.

On top of intensive mentorship sessions, students will also have the chance to take part in virtual Mandarin language and culture courses, workshops from TMU's core facilities, and a virtual tour to the university campus.

WHY IS THIS RIGHT FOR YOU ?

DISCOVER.

Reflect on your own research experience, look through virtual introductions, engage with preparatory content, and identify goals

DEVELOP.

Enhance research skills and knowledge through lectures, interactive virtual group sessions with professors and experts, and self-learning

Mandatory Elective

DELIVER.

Apply research learning to practical use and foster problem solving skills, global awareness, and innovative thinking capability

HOW WILL IT BE CONDUCTED ?

Accepted students will receive a personalized timetable based on preference. List of mentors and research topics are available on TVRC's website. A certificate will be awarded upon completion of the program.

WHO IS TVRC FOR ?

Young talents around the world with strong interests in health care and research in medicine

Time of classes: Based on Taipei time (GMT+8)

HOW MUCH WILL IT COST ?

This program is currently offered **FREE** of charge

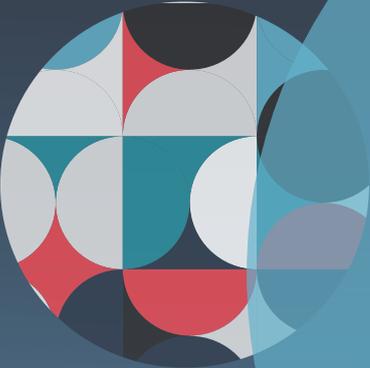

WHERE WILL IT BE ?

Classes and sessions are conducted through virtual classrooms & video conference platforms
