The 4th Summer Course Program

“COMMUNITY PARTICIPATION IN PUBLIC HEALTH DURING COVID-19 PANDEMIC ERA”

Faculty of Public Health
Universitas Diponegoro
13th – 23rd July 2022

SUMMARY

In the context of internationalization and supporting the achievement of Sustainable Development Goals (SDGs), the Faculty of Public Health, Universitas Diponegoro (FPH UNDIP) strengthens international cooperation and networking through the Summer Course Program. The Summer Course Program in 2022 is the fourth program offered to international students (undergraduate/post-graduate/doctoral programs) and lecturers at various universities as well as researchers and practitioners in the health sector affiliated to overseas institutions. This year, the topic raised is "Community Participation in Public Health during Covid-19 Pandemic Era" considering that during the current pandemic there are several elements of strengthening community participation related to preventing the transmission of Covid-19. Summer Course Program is held to integrate lecture activities and field practice so that participants can gain scientific insight into the health sector and various good practices and cultures gained through this activity. This Summer Course Program is carried out online due to considerations during the Covid-19 pandemic, through Zoom Meetings and Massive Open Online Courses (MOOCs) on 13th – 23rd July 2022. With this program, it is hoped that it will open up opportunities for collaboration between FPH UNDIP and universities abroad both in terms of academics, student affairs, and research.

BACKGROUND

Globalization as an economic, political, and social force has pushed higher education in the 21st century toward greater international engagement. Globalization has also given rise to demands for higher education institutions to increase competitiveness towards a World-class University through the internationalization process. Although internationalization and globalization can be viewed differently, they are dynamically two interrelated concepts. Globalization is understood as a catalyst while internationalization is the response, namely a response in a proactive way. Important elements of globalization related to higher education include a) Knowledge Society, b) Information and Communication Technologies (ICTS), c) Market Economy, d) Trade Liberalization, and e) Governance. These elements have a dual position, namely being both causes and causes related to their implications for the education sector, especially the internationalization of higher education.

According to Foskett in 2010, there were three main reasons for a university to internationalize. The first reason is that the implementation of internationalization is considered capable of developing human resources to face competition in the global market. This is the main reason universities carry out internationalization in order to prepare their graduates to have an international dimension in entering the job market. Internationalization also encourages research activities as a form of contribution in solving global problems. It is based on the premise that global issues require international cooperation between academia, universities, business, and government. Likewise, internationalization can also play an educative role in promoting international values, which is based on the premise that universities must prepare graduates to become global citizens and understand cultural differences.

A number of significant environmental changes in shaping responses and actions related to internationalization programs such as curriculum internationalization in learning, mobility of students, lecturers, and staff, implementation of cross-border education programs, foreign language studies, research collaborations, and other internationalization programs as needed and college reasons. The objective of the Faculty of Public Health UNDIP to carry out internationalization is in line with the Strategic Plan and Vision of UNDIP and in line with the internationalization policy in Indonesia as stated in the Long Term Strategy for Higher Education. Therefore, Faculty of Public Health UNDIP as a university that is part of the global community is expected to play an active role in realizing national education plans and ideals.

In order to achieve these goals, Faculty of Public Health UNDIP will provide facilitation to strengthen international cooperation and networking through the Summer Course Program. This summer course program is offered to foreign students at health institutions abroad. The Summer Course Program is held to integrate lecture activities and field practice so that participants can gain scientific insight into the health sector and various good practices and cultures gained through this activity. Furthermore, through the Summer Course Program, it is hoped that Faculty of Public Health UNDIP will open opportunities for collaboration with universities abroad, both in terms of academics, student affairs, and research.

OBJECTIVE

1. Inviting international students, graduate students, lecturers, researchers, and health practitioners to learn and develop knowledge of Community Participation in Public Health during Covid-19 Pandemic Era at Faculty of Public Health UNDIP
2. Cultivating a culture of scientific cooperation in a multicultural atmosphere for Faculty of Public Health UNDIP Academic Community
3. Initiating and promoting the Faculty of Public Health UNDIP internationalization program
4. Increasing the number of international students and academics at Faculty of Public Health UNDIP

TARGET

The targets of the Summer Course Program are international students (undergraduate/post-graduate/doctoral programs) and lecturers at various universities in the world besides Indonesia, as well as researchers and health practitioners affiliated to overseas institution.

ACTIVITY PLAN

Summer Course Program will be implemented through several learning methods, such as synchronous and asynchronous methods using Zoom Application and Massive Open Online Courses (MOOCS). This activity will be held from 13th – 23rd July 2022. In addition to presenting material on “**Community Participation in Public Health during Covid-19 Pandemic Era**”, this activity will also feature a virtual tourism tour for Semarang City and Central Java Province.

COURSE TOPICS

- ✓ Introduction to Bahasa Indonesia
- ✓ National Health System in Indonesia
- ✓ Health Information System in Indonesia
- ✓ Community Participation in Health Promotion in Indonesia
- ✓ Community Participation in Covid-19 Surveillance in Indonesia
- ✓ Community Participation in Maternal and Child Health in Indonesia
- ✓ Community Participation in Domestic Waste Management in Indonesia
- ✓ Challenge and Strategy of the Implementation of Covid-19 Vaccination Program in Indonesia
- ✓ Data Reporting and Information System of Covid-19 in Indonesia
- ✓ NGO Partnership in Supporting the Implementation of Complete Basic Immunization on Children in Indonesia
- ✓ Water and Sanitation Safety Plan for Controlling Covid-19 Transmission
- ✓ Covid-19 Prevention and Control at the Workplace
- ✓ Herbs as Indonesian Cultural Heritage and their utilization in Covid-19 Pandemic situation

- ✓ Best Practice on the Implementation of “Jogo Tonggo” or “Neighbourhood Care” and “3M” or “wash hand – wear mask – physical distancing” in Controlling Covid-19 Transmission in Central Java, Indonesia
- ✓ Best Practice on the Implementation of “Integrated Healthcare Post-Satellite” to support Maternal and Child Health during Covid-19 Pandemic in Central Java, Indonesia
- ✓ Sharing Experience and Lesson Learned on the Implementation of “White Flags Campaign” in Controlling Covid-19 Transmission in Malaysia
- ✓ **Special Class:**
 - Live online Class: Jamu Practice Class, Waste Recycling Creative Class
 - Live Report: Visit to Toddlers Integrated Healthcare Post

Schedule

Day to-	Date	Time (WIT)	Activity
1	Wednesday, 13th July 2022	08.15 – 08.30	Registration
		08.30 – 09.00	Opening Ceremony
		09.00 – 09.30	Module 1. Introduction to Universitas Diponegoro and Faculty of Public Health Speaker : Assoc. Prof. Dr. Budiyo, BSPH, MPH (Faculty of Public Health, Universitas Diponegoro)
		09.30 – 10.15	Module 2. Self-Introduction and Greetings in Bahasa Indonesia Speaker : Assist. Prof. Ari Udijono, MD, MPH (Faculty of Public Health, Universitas Diponegoro)
		10.15 – 10.30	Break
		10.30 – 12.00	Module 3. National Health System in Indonesia Speaker : Assist. Prof. Dr. Septo Pawelas Arso, BSPH, MARS (Faculty of Public Health, Universitas Diponegoro)
		12.00 – 13.00	Break
		13.00 – 17.00	Individual Assignment
2	Thursday, 14th July 2022	09.00 – 10.15	Module 4. Community Participation in Domestic Waste Management Speaker : Assoc. Prof. Dr. Budiyo, BSPH, MPH (Faculty of Public Health, Universitas Diponegoro)
		10.15 – 10.30	Break
		10.30 – 12.00	Module 5. Waste Bank : Resik Becik (NGO) Speaker : Ika Yudha, BSPH
		12.00 – 13.00	Break
		13.00 – 17.00	Individual Assignment
3	Friday, 15th July 2022	09.00 – 10.00	Module 6. Waste Management : Composting Speaker : Assoc. Prof. Dr. Nurjazuli, BSPH, MPH (Faculty of Public Health, Universitas Diponegoro)
		10.00 – 10.15	Break

Day to-	Date	Time (WIT)	Activity
		10.15 – 11.00	Module 7. Best Practice of “Masks” Waste Management in Controlling Covid-19 Transmission Speaker : Assist. Prof. Dr. Yusniar Hanani D, STP, MPH (Faculty of Public Health, Universitas Diponegoro)
		11.00 – 13.00	Break
		13.00 – 17.00	Individual Assignment
4	Saturday, 16th July 2022	09.00 – 09.45	Module 8. Health Information System in Indonesia Speaker : Assist. Prof. Farid Agushybana, BSPH, DEA, PhD (Faculty of Public Health, Universitas Diponegoro)
		09.45 – 10.30	Module 9. Data Reporting and Information System of Covid-19 in Indonesia Speaker : Muchamad Abdul Hakam, MD, Sp.PD (Head of Health Office of Semarang, Indonesia)
		10.30 – 10.45	Break
		10.45 – 12.00	Module 10. Water and Sanitation Safety Plan for Controlling Covid-19 Transmission Speaker : Assoc. Prof. Dr. Ir. Mursid Raharjo, M.Si (Faculty of Public Health, Universitas Diponegoro)
		12.00 – 13.00	Break
		13.00 – 17.00	Individual Assignment
	Sunday, 17th July 2022	09.00 – 17.00	Individual Assignment
5	Monday, 18th July 2022	09.00 – 10.15	Module 11. Community Participation in Health Promotion in Indonesia Speaker : Assist. Prof. Dr. Drs. Syamsulhuda BM, MPH (Faculty of Public Health, Universitas Diponegoro)
		10.15 – 10.30	Break
		10.30 – 11.30	Module 12. Best Practice on the Implementation of “3M” or “wash hand – wear mask – physical distancing” in Controlling Covid-19 Transmission in Central Java, Indonesia Speaker : Yunita Dyah Suminar, BSPH, M.Sc., M.Si (Provincial Health Office of Central Java, Indonesia)
		10.30 – 12.00	Module 13. Introduction of the 4th ICOPH-TCD of Faculty of Public Health Universitas Diponegoro Speaker : Assist. Prof. Nurhasmadiar Nandini, BSPH, MPH (Faculty of Public Health, Universitas Diponegoro)
		12.00 – 13.00	Break

Day to-	Date	Time (WIT)	Activity
		13.00 – 17.00	Individual Assignment
6	Tuesday, 19 th July 2022	09.00 – 10.00	Module 14. Community Participation in Covid-19 Surveillance Speaker : Assoc. Prof. M Sakundarno Adi, MD, M.Sc, PhD (Faculty of Public Health, Universitas Diponegoro)
		10.10 – 10.15	Break
		10.15 – 11.15	Module 15. Best Practice the Implementation of “Jogo Tonggo” or “Neighbourhood Care” in Controlling Covid-19 Transmission in Central Java, Indonesia Speaker : Tri Harso Widirahmanto, SH (Dinas Pemberdayaan Masyarakat, Desa, Kependudukan dan Pencatatan Sipil Provinsi Jawa Tengah)
